Deltek.

Choosing the Right Cloud for Your Organization

Deltek Vantagepoint is a cloud-based solution built for the unique needs of professional services firms.

Deltek Vantagepoint provides Software as a Service (SaaS) that is browser agnostic, so you can access the information you need anywhere, anytime. It is easy to buy, simple to own & secure to access.

Cloud Offerings

Deltek Vantagepoint is designed to meet the ever-changing needs of professional services firms just like yours. There are several offerings to choose from so you have the cloud solution that works best for you.

- Custom Reports Add-On
- Flex Cloud
- Enterprise Cloud

Custom Reports Add-On

- Create up to 10 SQL reports

Flex Cloud

- Create unlimited SQL reports
- Select the right upgrade window for your organization from two pre-determined dates
- Have direct read-only access to your databases if the APIs are not the right solution for you
- Access preview environments before upgrades to ensure customer-specific enhancements work seamlessly with all future Deltek Vantagepoint

Enterprise Cloud

- Add core code customizations
- ODBC write access
- Choose from a longer upgrade window timeframe
