

## Vantagepoint Resource Management

Choose the right people with the right skills and capacity to maximize resources and deliver projects on time and on budget.

Getting the right people scheduled from the start can make it easier to deliver successful projects. Pinpoint the right resources based on their skills and availability so you can meet schedule and budget demands. With Vantagepoint, you can get the right people on the right projects at the right time to improve performance and increase client satisfaction.

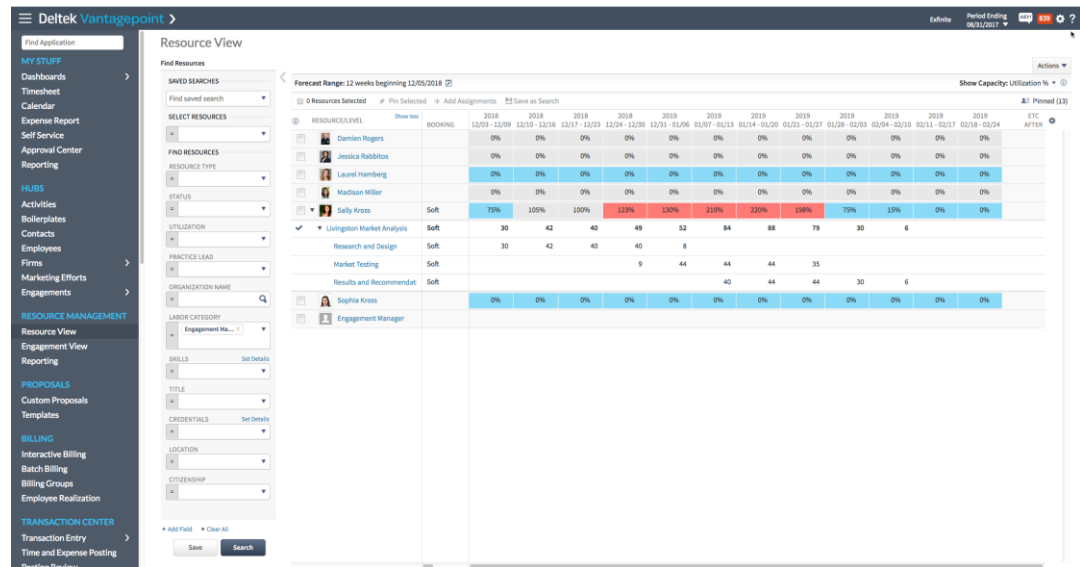

### Vantagepoint Resource Management Helps You:

- See incoming project pursuits so you have visibility into resourcing needs both now and in the future
- Find the right resources by availability, skills and expertise
- Identify what resources are being over utilized and underutilized to help you balance the workload
- Identify gaps in resource schedules to accelerate hiring and onboarding

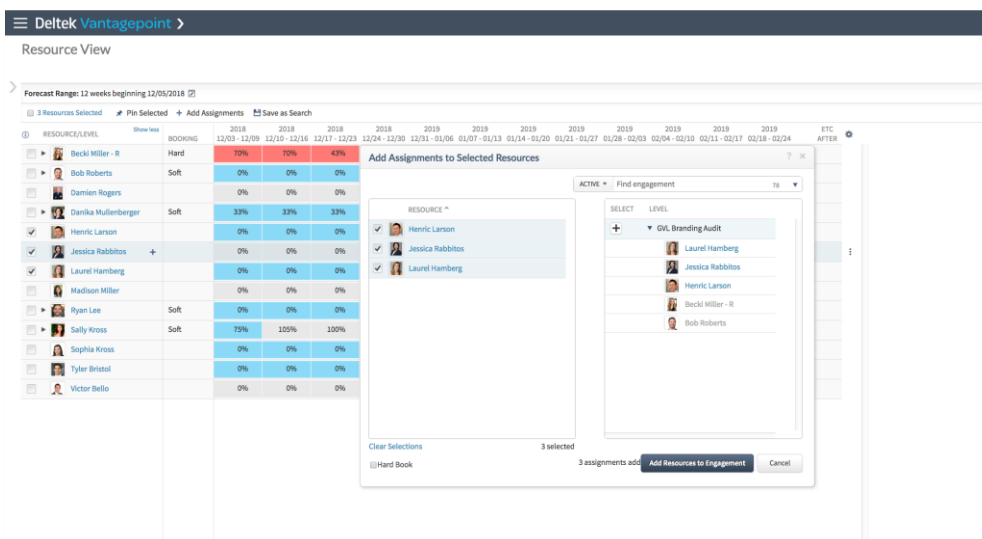

## Identify the Right Teams for Pursuits

- View pipeline and potential projects to soft book resources and identify potential gaps
- Create project plans for more accurate estimates and proposals
- Plan for potential pursuits so you can hit the ground running
- Quickly search for resources based on skills and availability; save teams to easily assign to future projects

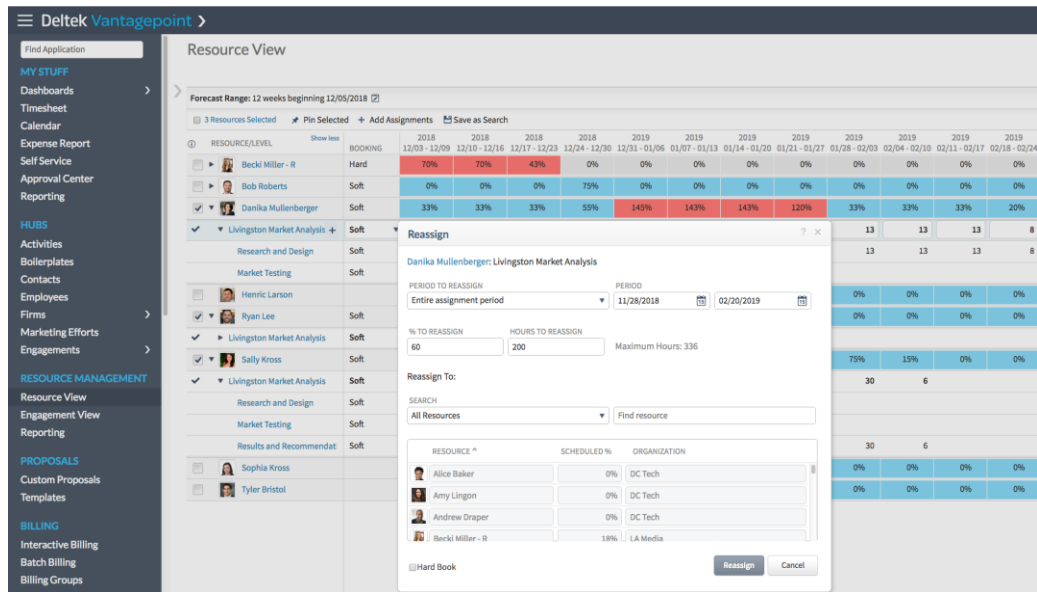

## Plan Resources Effectively

- Create a resource plan from templates or previous projects and soft book resources before it begins
- Set the schedule and assign individuals, teams of people or use generic resources
- Flexibly plan by either resource view or project view

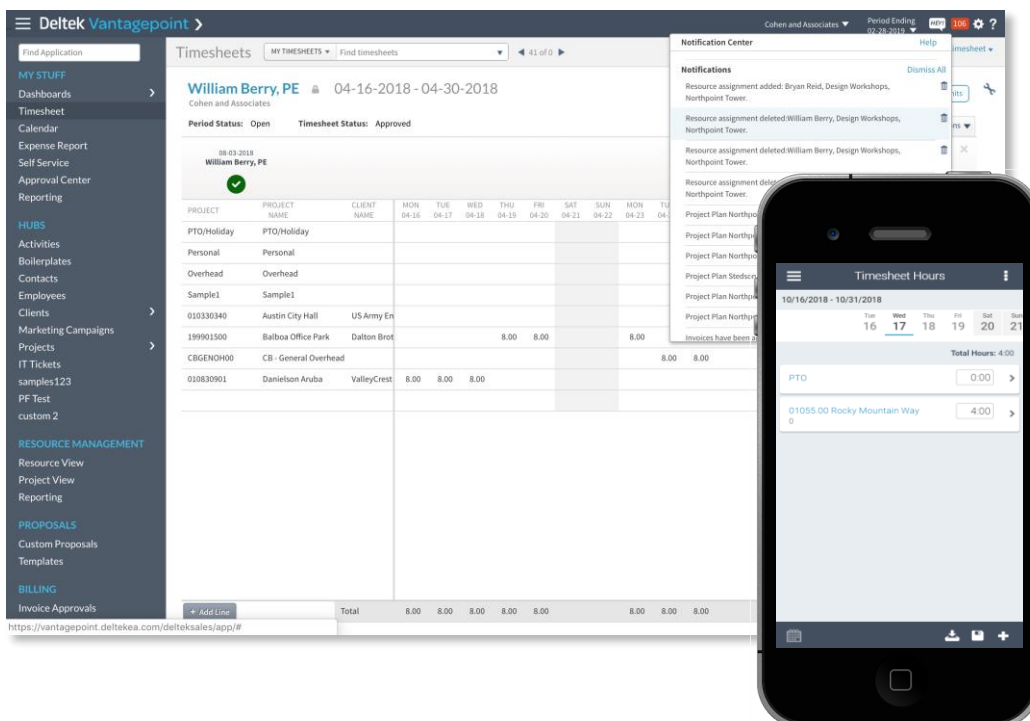

## Proactively Manage Resources

- Identify overburdened and underutilized resources with color-coding for instant visualization
- Quickly adjust to project demands with reassignment and rescheduling of resources in a few clicks
- Identify resource gaps, skills gaps and future resource needs
- Know you have the resources to deliver projects on time and on schedule

## Monitor Project Progress

- Quickly and easily track time and expense to ensure resource availability is up-to-date
- Keep teams informed of projects assignments with alerts and notifications
- Use the employee card to access key resource data
- Understand resource bandwidth and deliverable timelines all in one screen

## Accurate Reporting & Forecasts

- At a glance access to resources, teams and departments
- Identify backlog and future capacity needs
- Forecast hours and resource needs by days, weeks or months
- Use the interactive list of reports by project or resource

The screenshot displays the Deltek Vantagepoint Reporting interface. The left sidebar contains navigation menus for Resource Management, Proposals, Billing, Transaction Center, and Cash Management. The main content area shows a 'Reporting' section with a dropdown menu set to 'Planned v. Actual by Employee'. Below this, there's a table showing resource capacity and forecast data for various employees and projects.

Resources		Active	Forecast Range: 12 months beginning July 2017
CAPACITY	TOP PROJECT NAME	RANGE AVAILABLE HOURS	RANGE ETC HOURS
